REMEMBER: Any new member signed now receives
balance of 1990 FREE and dues will next be pay-
able in December of 1991 !!
.....

SPECIAL CONVENTION ROOM RESERVATIONS NOTE!! A few members have reported
that they called their LOCAL Holiday Inn and were told that no rooms were available
in Oak Hill for the NSCA meeting!! It is true that the motel is booked up, however, NSCA
is holding a block of rooms and you should mention this when you call your local inn for
reservations. There are still rooms available so please remember this!! Even if the
Oak Hill Holiday fills up, there are many other nearby motels available so don't let this
stop you from coming to Oak Hill. This meeting promises to be a good one based on the
early reservations so don't YOU miss this one!! If you encounter any problems with your
reservation, please contact the Janitor at 304/574/0105 and we will help to get things
in order !! Too, make your plans to attend the NSCA buffet dinner on Saturday evening
before the membership meeting and the auction!! The motel does not charge for the
meeting room, however, we must meet a minimum on the number that buy dinner buffet
tickets !!

PLEASE GET THIS PRESS RELEASE TO YOUR LOCAL NEWSPAPER OR RADIO STATION SO THAT INFORMATION ON OUR NATIONAL CONVENTION CAN BECOME AVAILABLE TO THE PUBLIC !!

From: Joe C. Copeland
NSCA Publicity Chairman

The National Scrip Collectors Association (NSCA) will held their semi-annual meeting and show on October 5 & 6, 1990, at the Holiday Inn in Oak Hill, WV. For further information, contact Harold Snodgress, President, P. O. Box 142, MacArthur, WV 25873 (304/253/5446).

For those who perhaps may not know what "scrip" is: it is what the song "Sixteen Tons" (owe my sould to the company store) is all about. Subsequent to the founding of NSCA in 1972, the objectives of the organization have been broadened to include much of coal mining memorabilia and Webster defines "memorabilia" as "things to be remembered and a record of those things". At this show serious collectors will not only bring tokens and paper scrip, which was used in the coal company store, but also lumber company stores. In addition, there will be coal miner lamps, lanterns, flasks, canteens, stocks, bonds, exploder tokens, post cards primarily associated with the coal and lumber industries, plus various other items.

The general format for NSCA shows and meetings is that the general public is invited on Saturday, October 6 from 8:00 a.m. to 5 p.m. Members will be showing their wares of the above mentioned items for trade, selling, buying, and FREE APPRAISALS. As an added bonus, those attending the show will be able to see the NEW RIVER GORGE BRIDGE, the longest steel arch bridge in the world - truly a sight to behold. At this time of the year the fall colors of the leaves should be starting to add to the surrounding beauty.

The show ususally attracts collectors from as many as fifteen states. NSCA has reserved a block of rooms for those wishing to attend. Call your local Holiday Inn for reservations or call direct to: 304/465/0571. (The area offers some of the best white water rafting in the U. S. and reservations are very difficult to obtain.) When calling, be sure and mention that you will be with NSCA.

There will be no admission charge and any area persons having scrip or other mining memorabilia will be offered free appraisals on their items.

Walter Caldwell, Fayetteville, WV, past president and present secretary of the organization, and Harold Snodgress, MacArthur, WV, present president, have established the precedent that the Oak Hill show is the very best !!

.....
Members wanting a FREE table for the Saturday show date should send in their request now . Call President Harold Snodgress (304/253/5446) or write to: P. O. Box 142, MacArthur, WV 25873.

A membership dinner will be held on Saturday evening following the show and a brief membership meeting will be held. Following the meeting a gigantic Floor Auction sale of scrip will be held.

OAK HILL MEETING MAIL/FLOOR AUCTION

The Mail/Floor Bid Auction to be held after dinner on Saturday, October 6 at the Holiday Inn in Oak Hill, W. Va. contains a wide variety of wage related tokens. There is coal scrip from 13 states, lumber from eight states, Explosive tokens, Picture scrip, plus a piece from an Arizona copper mine and one from a Tennessee zinc mine.

Your mail bids should be sent to Bill Williams, Auction Coordinator, 152 Kawga Way, Loudon, TN 37774 so as to arrive not later than Oct. 3. Phone bids may be placed up to 11:00 pm, Oct 3, Eastern time by calling 615-458-9427. We apologize for the short time available to bid.

In this auction, we have instituted the new feature of an estimated value for each token shown as EV\$10.00, etc. Our minimum bid remains at \$5.00 per lot, except where minimum bids are listed as MB\$25.00, etc. If you will bid the maximum that you would be willing to pay for a token, we will enter your bid in competition with floor bidding. This will assure that you will not have to pay any more than the current competitive price. Last auction, more than 90% of the mail bidders received their lots at less than their maximum bids. Rarity values are believed to be reliable, but are not guaranteed. All tokens are in normally collectible condition, except where special conditions such as wear, scratches, etc. are noted. Explosive Control tokens have Schenkman's numbers and values, Lumber tokens have Trantow numbers, and all Coal tokens have Edkins' 2nd Edition numbers. These books are available from Secretary Walter Caldwell, Box 29, Fayetteville, WV 25840.

EXPLOSIVE CONTROL TOKENS BOOK

We really appreciate the orders received following our appeal in the last issue of SCRIP TALK. Many thanks to each of you. We, however need to sell more than 80 additional copies in order to be able to publish Trantow's 2nd edition. It seems to us that the EXPLOSIVE CONTROL TOKENS catalog is a must for anyone collecting wage related tokens. This book is the standard reference for all tokens used as a means to control the issuance and use of explosives in the mining industry. It is priced at \$18.00, postage paid, for NSCA members. Non-members are charged \$22.00. Discount prices are available for purchases of 5 or more copies. Please send your order and check to Bill Williams, Catalog Committee, 152 Kawga Way, Loudon, TN 37774. Call 615-458 9427 if you desire additional information.

BELL COUNTY COAL MINES

For the third time in as many years, I was awarded the National Scrip Collectors Association's special literary award, the Ancil Donohoe Literary Award. I humbly thank everyone who voted for me again this year, and I'll continue to try to write interesting and informative articles in the coming months. Also, I wish to thank everyone who has complimented me on my meager efforts to pass along the information that I have discovered during my trips back into the past while researching the early coal mining history of Southeastern Kentucky.

W. C. Stump

FERNDALE COAL COMPANY Ferndale, Ky.

1909-1920

In 1909, J. C. Knuckles, an early Bell County coal operator, opened a small coal mine at Ferndale, Ky. The mine was one of the many "mule mines" that operated in and around Bell County, Kentucky, during the early 1900's. Approximately 60 miners worked in this mine with an average daily output of 80 tons of coal. The coal seam was about 3 feet and had a small parting of about 2 inches near the top. The roof was of slate and quite stable, and the mine was worked by the single entry room and pillar system. Haulage was by mules from inside the mines directly to the tipple, which was on the same level as the driftmouth. The coal was mined by pick and shovel, shot with black powder, and not very much powder was required as the coal was soft and easy to shoot. Squibs were used to ignite the powder.

By 1912, a small mining camp developed and a company store was built to serve the miners. As far as all records show, no company scrip was issued by this early coal company. Even the local area people know very little about this early mining company and the community that developed around the mine. However, records are made to be changed and that is what happened as far as the Ferndale Coal Company and scrip collecting is concerned.

In 1985, I met a Pineville, Ky., scription by the name of Bobby Rutherford. He was operating a small service station located in downtown Pineville at the time, and I stopped by to trade scrip and scrip stories everytime I came through his area. One of his most prized tokens was an early aluminum token marked Ferndale Coal Co. He had obtained the token from a friend who had found it buried in the front yard of his house. The token looked a bit on the rough side, but I

tried every way possible to trade or purchase his token. I knew that I could get a good Harlan County token in trade for this rare Bell County token, but he had already promised it to his friend and mentor, Crawford Blakeman, who ultimately acquired the token. It was, and is, to my knowledge, the only known token from this early Bell County Coal mining company and is the only tangible link to a company that was all but forgotten, except to a very few serious collectors and historians.

It's ironical, to say the least, as I brought the first phase of my Harlan County Scrip collecting to an end at the Spring N. S. G. A. Scrip convention this past May 4th, 1990, I tended to brag to my fellow scriptors that I had found and acquired, in my mind, a token from every known Harlan County coal company that issued scrip. Always skeptical, and with much more experience behind him than I have to back up his statements, my friend Crawford Blakeman said I could be all too premature in my assumption. After all, he thought he knew every Bell County coal company that issued scrip until Bobby Rutherford discovered the Ferndale Coal Co. token. He said that there was no way I could be sure that I had found every known token, but I feel that I have indeed found all the Harlan County, Ky. coal companies that issued company scrip. However, Crawford may be right, and another undiscovered Harlan County scrip may be just around the proverbial "corner." I would then have to eat that proverbial old bird called "crow." In any event, the scuffed and worn token from Ferndale, Ky., is the exception, not the rule as far as I am concerned, but I'll save up my money and "traders" just in case Bobby, Crawford, Jerry, or some other scriptor/reader might happen to prove me wrong.

SCRIP TALK ...As time and space permits !! The Janitor would like to thank those who replied in connection with his search for a HEMI 426 motor for a car that is being restored. He found several Hemi motors but none were the 426 type. Thanks, among others, to R. R. Tippy, Gene Wright, Arlie Slabaugh, and John D. Cox. If I have forgotten other names, please accept my apology and help me to keep looking!!!...Sympathy is extended to Scriptors Eli Harrah, Jr. of Fremont, NE on the loss of his mother who was a resident of Oak Hill, WV and to John Holt of Oak Hill on the loss of his wife and a brother both within the past few days.....The Editor needs additional articles for SCRIP TALK. (He still has one or two on file from W. C. Stump and one from Mark DeLawyer and these will appear shortly.)...Too, we have an urgent need for a BETTER SCRIP COLLECTION to sell at auction in the bulletin. See details in another section of this issue!!!! Arrangements are complete for the BIG OAK HILL CONVENTION !! Remember: we need for all those who attend to purchase a meal ticket for the BUFFET DINNER on Saturday evening. This enables NSCA to get the meeting room without an extra charge by the motel...More later....
